Wheelersburg, OH | conley7985@gmail.com | [linkedin.com/in/shawn-conley-9a6a45216](https://www.linkedin.com/in/shawn-conley-9a6a45216)

PROFESSIONAL SUMMARY

IT professional with a B.S. in Information Security and CompTIA A+, Network+, and Security+ certifications, delivering network device configuration, troubleshooting, and maintenance across a 5+ site, 300+ employee environment. Skilled in VLAN segmentation, firewall and IDS/IPS monitoring, virtual machine and server administration, and endpoint protection, with practical exposure to UniFi, Adtran, and FS network hardware across Windows and Apple environments. Brings a security-first approach to building and maintaining a well-run IT operation.

CERTIFICATIONS

- CompTIA A+ — Earned April 2026
- CompTIA Network+ — Earned May 2026
- CompTIA IT Operations Specialist (CIOS) — Earned May 2026
- CompTIA Security+ — Earned July 2026
- CompTIA Secure Infrastructure Specialist (CSIS) — Earned July 2026

TECHNICAL SKILLS

- **Networking & Security:** Network device configuration, troubleshooting & maintenance, VLAN segmentation, firewall configuration & monitoring, IDS/IPS, Cisco Umbrella administration
- **Systems & Platforms:** Windows, Windows Server, virtual machine configuration & maintenance, Apple devices, server management & maintenance
- **Administration & Tools:** Microsoft 365 Admin Center administration, Group Policy, file share access control & administration, NinjaOne RMM & configuration management, Datto backup configuration & oversight, SentinelOne endpoint protection, Python, PowerShell scripting

PROFESSIONAL EXPERIENCE

Glockner Enterprises — IT Administrator

January 2025 – Present | Portsmouth, OH

- **Multi-site IT operations:** Support network, systems, and security operations across 5+ business sites and 300+ employees, including a two-month stretch as the sole IT support resource — independently managing helpdesk support, network infrastructure, server maintenance, and security monitoring without interruption.
- Administer Microsoft 365 Admin Center and Group Policy across multiple business entities, managing user provisioning, permissions, and file share access control.
- Manage Avaya and Wildix VoIP/IPO phone systems, including extension changes, call routing, and system configuration.
- Configure, maintain, and troubleshoot UniFi, Adtran, and FS network switches and firewalls, including VLAN segmentation, access control, and NVR surveillance deployment across the environment.
- Configure and maintain virtual machines and Windows servers, including Datto backup configuration and oversight, ensuring uptime, data integrity, and reliable performance across the organization.
- Monitor firewall and IDS/IPS alerts, analyzing blocked threats and responding to potential security incidents.
- Secure endpoints using the SentinelOne platform, monitoring for threats and responding to detected issues across company devices.
- Deploy and manage patches, software, and configurations through NinjaOne RMM, providing secure remote access and centralized system management.
- Develop Python and PowerShell scripts to automate routine administrative and troubleshooting tasks.
- Promote end-user security awareness through phishing simulation education and IT best-practice training, reducing organizational risk.
- Resolve end-user hardware, software, and account issues for 300+ users through helpdesk tickets and phone support, minimizing downtime organization-wide.
